blessed

BOLD! BRILLIANT! BEAUTIFUL! BLESSED!

"The level of academic achievement that students attain by eighth grade has a larger impact on their college and career readiness by the time they graduate from high school than anything that happens academically in high school!"

The Forgotten Middle
An Executive Summary
By ACT on College Readiness

OUR VISION:
Empower Girls
to Be Bold, Brilliant,
Beautiful, and Blessed

ALL GIRLS
GRADES
7 & 8

Bold Academics in 7th & 8th Grades

Notre Dame Junior Academy's focus is on:

- * Developing **an individualized academic program** for each student to progress at her own pace.
- * **Providing a challenging curriculum** in core academic areas with the opportunity to participate in high school level classes depending on a student's qualifications.
- * **Expanding math options** for young women who can move ahead more quickly **for Advanced Placement and college courses later in high school.**
- * **Beginning foreign language** with choices in Spanish, French, Latin, or Chinese.
- * **Transitioning to a block schedule** for early preparation for college, time for more in-depth and hands-on learning, better academic retention, and time for academic support services, if required.

Brilliant in Global Perspective

Notre Dame Academy is an International Baccalaureate (IB) World School, **the first and only Catholic, all-girls school in Ohio and the largest program in northwest Ohio.** This honor further enhances our outstanding reputation with colleges and universities. The Junior Academy directly benefits from its relationship with the high school by:

- * Staff and faculty that are IB-trained
- * Association with the world's most prestigious educational system
- * The IB philosophy that permeates the entire school ensuring students are prepared for their future to help create a better world through intercultural understanding and respect
- * Enhanced academic preparation in seventh and eighth grade to participate in the high school IB Program

brilliant

Beautiful in Self-Confidence
through the Fine Arts

Girls love to perform and discover who they are. Seventh and eighth grade is the perfect time for girls to discover their inner Rembrandt, play an instrument, and learn self-confidence by speaking in front of others. Girls are encouraged and inspired to shine in an environment that nurtures their spirits.

Brilliant in Leadership with
Empowering Opportunities

Tomorrow's Leadership Committee (TLC) is a unique skill development concept that allows different girls to step up at numerous times throughout the year. Plus, girls gain leadership experience and new friendships in clubs, student government, and plenty of other fun activities.

Junior Academy athletes, "Eagles," can field teams in archery, cross country, soccer, volleyball, basketball, lacrosse, softball, swimming, tennis, and track, depending on student interest.

Blessed with a Life Enriched by
Faith and Service to Others

The heart of Notre Dame Junior Academy is its faith-based community, where Christian values are nurtured in an atmosphere that emphasizes a young girl's prayer life, moral leadership, and service to others.

Bold in Achieving More

All-girl classrooms encourage young women to achieve more. Generally you will see girls do much better in math and science and across the board in all subjects. In a single-sex environment girls aren't afraid to be known as smart.
